

WORKING RESEARCH ATLAS

Post-Unicorn Finance Industry Atlas

A source-backed map of firms, funds, platforms, studios, acquirers, and capital providers operating outside or adjacent to classic unicorn venture capital, plus the financing mechanisms they use.

Evidence boundary: this packet is a working research export. Candidate evidence is useful for mapping and follow-up, but it is not paper-ready. Instruments are financing mechanisms, not entity asset classes.

ENTITIES	CLAIMS	ENTITY GROUPS	INSTRUMENT LINKS	PAPER-READY CLAIMS
157	262	6	73	0

Generated 2026-05-23T02:59:50-04:00 from local SQLite atlas with 186 registered source URLs. Claim evidence mix: candidate_evidence: 156, verified_fact: 106.

Taxonomy 9 rows, including instrument family

Rows marked as instrument families describe financing mechanisms. They are not used as primary entity groups.

BUCKET	DEFINITION	RETURN MODEL	LIQUIDITY PATH
Camel Modifier MODIFIER	Capital-efficient, resilient, profitability-oriented operating philosophy.	Depends on the underlying asset class; reduces financing dependence and burn risk.	Applies across acquisition, hold, profitability, and VC paths.
Instrument INSTRUMENT_FAMILY	Financing structures used across asset classes, including revenue share, royalties, capped returns, and milestone tranches.	Contractual repayment, yield, cap, royalty, revenue share, or milestone-triggered economics.	Repayment, yield, capped return, conversion, or contractual buyout.
LMV EMERGING_ASSET_CLASS_CANDIDATE	Leveraged Micro Ventures: tiny AI/software-enabled teams creating outsized value with low capital needs.	High revenue per employee, small exits, cash yield, small checks with high MOIC potential.	Small acquisition, profit distributions, founder buyback, revenue share.
Patient Capital ASSET_CLASS_OR_CAPITAL_STRATEGY	Long-duration capital for companies designed to compound without a forced sale.	Dividends, royalties, profit share, cash yield, permanent equity appreciation.	Distributions, buybacks, long-duration holds, optional acquisition.

BUCKET	DEFINITION	RETURN MODEL	LIQUIDITY PATH
Portfolio Capital OPERATING_MODEL	Studios, foundries, holding companies, or repeatable company-creation/acquisition platforms.	Portfolio-level equity, acquisition compounding, shared infrastructure leverage.	Portfolio exits, fund distributions, dividends, public holding company value.
SMV EMERGING_ASSET_CLASS_CANDIDATE	Strategic Middle Ventures: tech-enabled companies with strategic acquisition, profitable-growth, or middle-outcome logic.	Middle-market acquisition, cash-flow growth, strategic buyer value, or targeted portfolio compounding.	Strategic acquisition, PE/platform acquisition, dividend/earnings yield, secondary transactions.
Search/ETA ADJACENT_ASSET_CLASS	Entrepreneurship through acquisition: buying and operating an existing business.	Equity value creation through acquisition, debt paydown, operational improvement, and exit or hold.	Resale, dividends, recapitalization, long hold.

BUCKET	DEFINITION	RETURN MODEL	LIQUIDITY PATH
Sovereign Capital SOURCE_OF_CAPITAL_CLASS	Innovation capital deployed for national, regional, or strategic-interest reasons.	Financial return plus strategic, national, regional, security, or industrial-policy outcomes.	Strategic exits, public listings, fund distributions, national strategic value.
UVC ASSET_CLASS	Traditional venture capital optimized for power-law returns and billion-dollar-plus outcomes.	Equity upside from a small number of fund-returning winners.	IPO, mega-acquisition, secondary sales, fund distributions.
